

eXplore S

220 & 240

mechanical sewing machines

THE DURABLE ALL-ROUNDERS TO MEET ALL YOUR NEEDS

The elna eXplore 220S and 240S mechanical sewing machines are an affordable choice without compromising on quality or on any important function:

- the built-in needle threader and the auto-declutch bobbin winder facilitate preparation tasks;
- with the extra-high presser foot position coupled with strong needle penetration you will perfectly handle multiple layers;
- for precise stitching on all fabrics, the thread tension and the foot pressure are adjustable.

EASY-ACCESS STITCH SETTINGS

Using the suitable stitch pattern or settings for your project couldn't be easier: All the dials are conveniently placed in the same area for selecting the pattern or adjusting the stitch length and stitch width, so that you can comfortably take advantage of a large choice:

- 23 or 15 decorative and utility stitches for the 240S or the 220S respectively;
- practical stretch stitches with an invaluable stitch length fine-tuning function;
- stitch reference chart printed on the front, next to the stitch selector.

THE ADDITIONAL TOOLS FOR THE FINISHING TOUCHES

Uncommon on mechanical sewing machines, these models offer additionally some convenient features and helpful accessories in order to complete your sewing tasks with ease:

- free arm for sewing tubular items, like hems or sleeves;
- possibility to sew with a twin needle;
- a one-step buttonhole and the automatic buttonhole foot equipping the 240S or the four-step buttonhole and the sliding buttonhole foot coming with the 220S.

eXplore 220S & 240S
