Spare parts included

- 面倒な多本針の縫製後の糸処理も、バリカンで素早くカット
- センサーが生地を感知し、近づけるだけで自動起動
- ネジで調整することで、カットする糸の長さを変更可能
- 糸くずのお手入れが簡単で、メンテナンスの手間が軽減

- The clippers can quickly cut off the threads after sewing with multiple needles, which can be a hassle.
- Just bring it close and it starts automatically. The sensor detects the fabric.
- The length of the thread to be cut can be changed by adjusting the screw.
- Easy to clean up lint, reducing the maintenance effort.

KANSAI SPECIAL

糸刈り装置

Thread cutting device

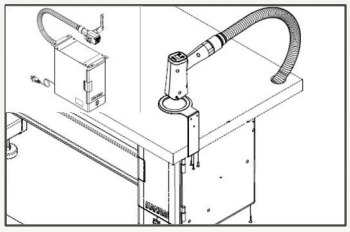

Normal Type

TT100M

Mounting Type

TT100H

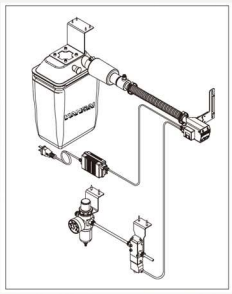

Handy Type

Voltage	AC220V
Frequency	50Hz/60Hz
Power	350W

Simple Type

TT100S

Without the main vacuum unit is available

Voltage	AC100-240V
Power	10W
Rated Pressure	0.45MPa

	Normal	Simple
Auto/Manual Switching Wireless control—no wiring needed. Pre-paired for instant use.	○	○
Adjustable Suction Volume & Duration Fine-tune suction power and operating time according to thread type and length.	○	○
Sensor Detection Range Adjustment Customize detection distance to suit the work environment. Prevents false triggers and ensures safe operation.	○	○
Automatic Communication with Main Unit Automatically receives operation signals from the sewing machine. Synchronizes suction timing for seamless integration.	○	×
Idle Suction Speed Adjustment Keeps the motor running at low speed during standby for smoother restart and effective lint prevention.	○	×

※The Simple Type model does not include automatic communication or idle speed suction adjustment functions.

Benefits of Implementation

- Reduced operator workload and stabilized product quality
- Lower defect rate caused by residual thread waste
- Compatible with multi-variety and small-lot production

Model Name	Order Number
TT100M	20-0101 + JA-715C
TT100H	20-0102
TT100S	20-0103 + JA-715C
